Special Message from Dr. Harkness

I just returned from the First World Congress on [International Positive Psychology Association](#) in Philadelphia. It was definitely worldwide with 1600 participants from 45 countries. It was a superlative learning experience for me to participate in what I view as a major achievement in our current world! I have written an article about it for the University Texas of Dallas Executive Coaching Newsletter to be published in July. I'll share the link after its published.
