

Career Success Criteria/Prescription -- Glass Balls vs. Rubber Balls

Thoughtfully determine and list your "glass balls," your strongest, fundamental bedrock career needs for your success. These Career Success Criteria are from your DNA and are as individual as your fingerprints. Build your career on your bedrock, "glass balls" and not your unimportant "rubber balls."

Current, Former and Future jobs

List your "glass balls", your Career Success Criteria, and how you define them in order to measure and quantify them.

Then, rate each criteria on a scale from 1-10 (10 = highest) for each job you have listed.

My Career Success Criteria:	As Measured or Quantified by:	Current, Former and Future jobs				
Add each column and record in the Option Totals spaces. The higher the number, the more that job fits with your Career Success Criteria.		Option Totals
